

# Arizona Commercial Scale Requirements

**Please note:** If you weigh your gemstones prior to the GemFair you will not need a license. If you bring a scale to the GemFair that has previously been approved by the Arizona Department of Weights and Measures they will send you an invoice for your 2012 License; please bring this license to the GemFair.

**\*\*\*\*NOTE** all commercial scales that are not licensed by the Arizona Department of Weights and Measures and/or not NTEP approved, are subject to confiscation, if a scale is brought to the show.

The Tucson GemFair and the Arizona Department of Weights and Measures want to remind vendors that all commercial scales used in Arizona are required to be both National Type Evaluation Program (NTEP) approved and licensed by the department. AGTA will have a licensed scale in the GemHall for exhibitors to use. To make this process more convenient please have your gemstones weighed prior to the GemFair.

**Please note:** The Arizona Department of Weights and Measures website [www.azdwm.gov](http://www.azdwm.gov). Once you view the home page; click on Tucson Gem Show. This page will guide through the application process of your scale. You will also be able to search the NTEP database to locate your scale. Please use the attached form for to complete for you Scale License. Remember to accompany your application with a \$12 payment.
